

**45. *Hydriastele valida* (Essig) W. J. Baker & Loo, comb. nov.** *Gulubia valida* Essig, Principes 26: 169 (1982). Type: Papua New Guinea, Sandaun, Torricelli Mts, Essig LAE 55099 (holotype BH; isotype L, LAE).

**46. *Hydriastele variabilis* (Becc.) Burret, Notizbl. Bot. Gart. Berlin-Dahlem 13: 483 (1937). *Nenga variabilis* Becc., Malesia 1: 26 (1877). *Adelonenga variabilis* (Becc.) Becc., Ann. Jard. Bot. Buitenzorg 2: 82 (1885). Type: Indonesia, Papua, Ramoi, Beccari PP426 (holotype FI).**

*Nenga variabilis* var. *sphaerocarpa* Becc., Malesia 1: 27 (1877). *Hydriastele variabilis* var. *sphaerocarpa* (Becc.) Burret, Notizbl. Bot. Gart. Berlin-Dahlem 13: 483 (1937). Type: Indonesia, Papua, Amberbakin, Beccari s.n. (holotype FI).

**47. *Hydriastele vitiensis* W. J. Baker & Loo, nom. nov.** *Gulubia microcarpa* Essig, Principes 26: 173 (1982). Type: Fiji, Viti Levu, Moore & Phillips 10543 (holotype BH).

**NOTE.** In this account, we transfer two accepted taxa that share the same species epithet, *Gronophyllum microcarpum* Scheff. and *Gulubia microcarpa* Essig, to the genus *Hydriastele*. We have maintained the epithet for the former taxon and herein provide a *nomen novum* for the latter.

**48. *Hydriastele wendlandiana* (F. Muell.) H. Wendl. & Drude, Linnaea 39: 209 (1875). *Kentia wendlandiana* F. Muell., Fragm. 7: 102 (1870). Type: Australia, Northern Territory, Liverpool R., Gulliver s.n. (holotype MEL; isotypes BRI, K)**

*Hydriastele wendlandiana* var. *microcarpa* H. Wendl. & Drude, Linnaea 39: 210 (1875). Type: Australia, Queensland, O'Connell R., Nernst s.n. (holotype ?MEL).

*Hydriastele douglasiana* F. M. Bailey, Queensland Agric. J. 1: 232 (1897). Type: Australia, Queensland, Cape York Peninsula, Somerset, Polo Creek, Jardine s.n. (holotype BRI; isotype ?K).

**NOTE.** The type of *Hydriastele douglasiana* F. M. Bailey was collected for Bailey by Jardine, but the material marked as the type in Brisbane is labelled as *F. M. Bailey* 18. Further examination of the material in Brisbane is required to confirm that the two alternative citations represent the same collection.

### Acknowledgements

We are sincerely grateful to John Dransfield and Rafaël Govaerts for providing access to unpublished material and for critical comments on the

manuscript. John Dowe, Dick Brummitt and Himmah Rustiami supplied essential information on nomenclature and types. Mike Lock and two anonymous reviewers made useful suggestions for improving the manuscript. The molecular phylogenetic research was conducted while AL was in receipt of a Royal Society South-East Asia fellowship at the Royal Botanic Gardens, Kew. The people of Bouma, Taveuni facilitated the collection and description of *Hydriastele boumae*.
